

ISPE 08 ANNUAL MEETING

NAVIGATING THE HORIZON OF INDUSTRY CHANGE

Community of Practice Night Monday, 27 October 2008

Sponsorships Available

ISPE's Annual Meeting offers industry professionals a casual learning environment filled with energizing networking events. Members often say that this is the once-a-year event that cannot be missed. A unique addition to the 2008 ISPE Annual Meeting is the Community of Practice (COP) Night on Monday, 27 October 2008.

Becoming a COP Night sponsor will provide cost-effective opportunities to engage and interact with like-minded professionals for a night of open dialogue, casual socialization, and enlightening industry updates.

Below is the list of COPs planning to participate:

Biotech

Creates a global focal point of support for pharmaceutical professionals operating in the Biotech Sector

Commissioning and Qualification

Aims to align the processes of commissioning and qualification with a science and risk based approach, provide input and guidance into other documents, and to facilitate understanding and organizational change necessary to implement this approach

Containment

Provides a forum for those involved in the safety of patients and people from exposure, contamination and cross contamination of hazardous compounds

Critical Utilities

Provides a forum for sharing ideas relevant to topics such as system design, commissioning and qualification, process validation, requalification, regulations, operations, and maintenance

Disposables

Aims to create a global focal point of support for biopharmaceutical professionals working with single-use disposable technologies. Single-use technologies includes bags systems, filters, connectors, aseptic transfer, controlled freeze-thaw, tubing and any other equipment for bioprocessing developed in single-use format.

Good Automated Manufacturing Practice (GAMP)

Exists to promote the understanding of the regulation and use of automated systems within healthcare industries

HVAC

Provides relevant, timely information and solutions to real-world problems related to HVAC for pharmaceutical facilities

Investigational Products

Supports industry professionals world-wide with interest or professional experience in all aspects of the investigational products supply chain

Packaging

A community for pharmaceutical industry professionals working in the area of packaging from the facility to the packaging equipment, and includes labeling, warehousing, components, and equipment

Process Analytical Technology

Creates a global focal point for pharmaceutical professionals interested in Process Analytical Technology

Process Product Development

A community for professionals in product/process development to discuss and address issues of common interest

Project Management

A forum for professionals working within the pharmaceutical industry who have an active interest in promoting "continuous improvement" project management

Sterile Products Processing

Aims to establish and manage a forum that supports all facets of sterile products processing

Sustainable Facilities

Aims to respond to the global issue of environmental sustainability for facilities and infrastructures (e.g. demand for reduced carbon emissions and other green house gases, energy usage, and green building design/construction/ operation).

Being a COP Night sponsor offers:

- Unparalleled exposure to a targeted audience of industry professionals
- Two (2) tickets to the sponsored function
- Company logo signage at event
- Pre-event exposure on ISPE Community of Practice Web page
- Mention in promotional emails
